

How to support home learning

Follow this guidance to create a positive learning environment at home

Be realistic about what you can do

- › **You're not expected to become teachers** and your children aren't expected to learn as they do in school. Simply **providing your children with some structure** at home will help them to adapt. Use the tips below to help you make this work for your household
 - › **Take stock of what is working.** What's working and what isn't? Discuss any concerns your daughter may have regarding work set. If your daughter has issues with certain subjects she is encouraged to email her teachers or her form tutor. Similar celebrate what is going well – did your daughter get a shout out in assembly this week? Did she receive a Home Learning Well Done Card?
 - › **Take care of your own health and wellbeing.** This will be new for your entire household, so give it time to settle. Take a look at the links at the end of this factsheet for some advice on mental health and wellbeing
-

Keep to a timetable

- › **Your child has been issued with a timetable to help her meet deadlines. Check in with your child and try to keep to the timetable, but be flexible.** If a task/activity is going well or they want more time, let it extend where possible
 - › If you have more than 1 child at home, **consider combining their timetables.** For example, they might exercise and do Maths together – see what works for your household
 - › **Designate a working space if possible,** and at the end of the day have a clear cut-off to signal school time is over
 - › **Stick the timetable up on the wall** so everyone knows what they should be doing when, and tick activities off throughout the day
 - › **Create and stick to a routine** if you can. This is what children are used to. For example, eat breakfast at the same time and make sure they're dressed before starting the 'school' day – avoid staying in pyjamas!
 - › **Distinguish between weekdays and weekends,** to separate school life and home life
-

Make time for exercise and breaks throughout the day

- › **Start each morning with a [PE lesson](#)** at 9am with Joe Wickes on catch up for example
 - › If you have a **garden, use it regularly.** If you don't, try to get out **once a day** (households can be together outdoors but 2 metres apart from others)
 - › Get your child to **write in a diary what they did each day** – this can be a clear sign that the 'school' day has ended
-

Other activities to keep children engaged throughout the day

- Where you have more freedom in the timetable, **make time for other activities**. Add some creative time or watch a dance video from [Go Noodle](#) to get the heart-rate going
 - Encourage reading for pleasure where possible
 - **Give them chores** to do so they feel more responsible about the daily routine at home
 - Ask them to **help you cook** and bake
 - Accept that **they'll probably watch more TV/spend time on their phone** – that's ok but you might want to set/agree some screen time limits
-

If you need to contact the school regarding any of the points raised please get in touch with your daughters form tutor or year team.
