

## A Level Art & Design

Exam Board: [www.ocr.org.uk](http://www.ocr.org.uk)

Studying **Art & Design** can lead to a career in the creative industries as well as developing the intellectual, imaginative and thinking skills that are valued by universities and employers.

The course will extend and develop your existing practical skills and give you the opportunity to investigate and experiment with new media and techniques, develop expressive and aesthetic understanding and prepare you to work increasingly independently as a young artist.

### Advanced Studies at Swanshurst

|                    |   |
|--------------------|---|
